

I was invited to come and speak today March 3<sup>rd</sup>,2016, But after continuous changes the Veterans from the GRHV have no voice today.

State Rep. McBroom has made comments that I and others to take as to just plan cover the ----- of fellow associates. Playing games with the lives of fellow veterans is a slap in the face to the veterans that are enduring verbal and physical abuse.

State Rep. Barret seems to be the only one that cares about these veterans.

You don't play games with the lives of our comrades. We had their backs on active service and we continue throughout our lives.

The State of Michigan has now infuriated the hundreds of thousand veterans that live in this wonderful state.

The veterans along with our lawyer will be giving testimony to the media. Names, dates will be given.

Let it be known veterans NEVER stand alone.

The Representative of the State of Michigan has given us nothing but the run a round. Playing with the lives of the people who made it possible that they are speaking English and they sit in the chairs they do.

Let it be known that the veterans of this wonderful State of Michigan will never fly the white flag. We will not go down without a fight.

Catherine Buckley

Veteran, Advocate
